

## **Web Developer: Wordpress.**

### **Who Are Sharpmonkeys?**

Sharpmonkeys are a digital marketing agency based in Worcester, West Midlands. We provide digital marketing services to a range of clients in the UK and overseas and specialise in creating digital marketing campaigns for a whole range of different organisations. Sharpmonkeys are a Google Partner Agency.

The work is varied, interesting and ever evolving. Sharpmonkeys have been trading since 2005 and have an established customer base but are also looking to expand.

The office is in Worcester city centre with parking, normal hours are Monday-Friday , 9am - 5pm. Some remote working will be required, flexible working arrangements from home are also encouraged.

### **Job Description - Web Developer.**

We are seeking a WordPress Developer responsible for both back-end and front-end development, including creating WordPress themes and managing plugins. This position requires a combination of programming skills (namely PHP, HTML5, CSS3, and JavaScript) and aesthetics (understanding element arrangements on the screen, the color and font choices, and so on). The candidate should have a strong understanding of industry trends and content management systems. Experience with the responsive and adaptive design is strongly preferred. Also, an understanding of the entire web development process, including design, development, and deployment is preferred.

### **Responsibilities**

- Building new client websites as part of a delivery team.
- Maintaining current client websites.
- Designing and implementing new features and functionality.
- Establishing and guiding the company's website architecture.
- Ensuring high-performance and availability, and managing all technical aspects of the CMS.
- Helping formulate an effective, responsive design and turning it into a working theme and plugin.

### **Skills and Qualifications**

- Good understanding of front-end technologies, including HTML5, CSS3, JavaScript.
- Experience building user interfaces for websites and/or web applications.
- Experience designing and developing responsive design websites.
- Ability to understand CSS changes and their ramifications to ensure consistent style across platforms and browsers.
- Ability to convert comprehensive layout and wireframes into working HTML pages.

## The Person

We are looking for a personable web developer who thrives on creating great solutions for clients as well as looking after maintenance and continuous improvement of client sites. A working knowledge of SEO would be useful as would an appreciation of contemporary design.

You will be working alongside a designer and the ability to convert design ideas into working solutions is essential.

The web developer role is crucial to Sharpmonkeys service and sits alongside design, social media, SEO/PPC roles within the company.

Sharpmonkeys can offer a fun, autonomous working environment and progression for the right candidate would be to manage a development team in house.

## Remuneration & Benefits

- Salary is dependant on experience.
- 28 days annual leave.
- Flexible working hours.
- Company Pension.
- CPD.
